

Expand Opportunities for Your Students with SAT School Day

One Day Can Make a World of Difference

To support you in clearing a path to college for your students, we're making it easier than ever to provide students with an opportunity to take the SAT® during the school day. SAT School Day allows states, districts, and schools to offer juniors and seniors the opportunity to take the SAT during their regular school day at their home school, expanding access to a globally recognized college admission test that's accepted at all U.S. colleges.

Benefits for Schools and Districts

- **Flexible and efficient to order and deliver:** The entire SAT Suite of Assessments—including the SAT, PSAT/NMSQT®, PSAT™ 10, and PSAT™ 8/9—is available to order online, all in one place, with the option to order any number of tests—all without a contract. Schools can administer assessments in the suite in parallel, testing multiple grades on the same day.
- **Easy to monitor progress:** All tests in the SAT Suite share a common score scale and are appropriate for their designated grade levels. This makes it easy to track performance across tests to measure growth and identify areas where students need help. Our secure, interactive score reporting portal makes it easy to view integrated data across the SAT Suite.
- **Supports equity:** When students have the opportunity to test at their own school, they're more likely to take the test. By providing a college admission test in school, you're cultivating a college-going culture for the whole school.

“The SAT School Day program has been essential in helping our students on the path to college. Since we started utilizing the assessment in 2010, we have seen a significant increase in college enrollment and financial aid. **Our class of 2017 received over \$380 million dollars in scholarships and financial aid, a 300% increase from 2010.**”

—JENNIFER ERTEL, SENIOR MANAGER, COLLEGE READINESS, HOUSTON INDEPENDENT SCHOOL DISTRICT

Help Your Students Cross the Finish Line

SAT School Day breaks down barriers students face on their path to college.

- **Expands access:** When students take the SAT in school during the school day, they don't have to juggle weekend responsibilities or find transportation. Income-eligible 11th- and 12th-grade students also receive SAT fee waivers, unlimited free SAT score sends, and college application fee waivers, so they can take the SAT and apply to college—for free.
- **Increases comfort:** Students have lower stress levels when they test in a familiar setting with people they know.
- **Builds confidence:** Nothing builds confidence like practice, and the SAT offers free, personalized practice plans for all students. Official SAT Practice on Khan Academy* provides every student with a practice plan built just for them, along with integrated coaching tools for teachers to view progress and support their students.

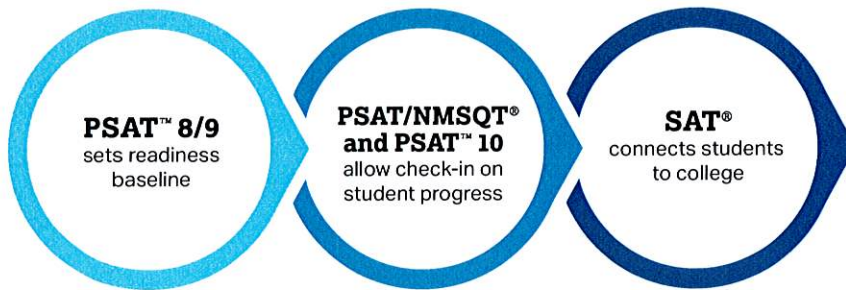

Research shows that students who spend 20 hours on Official SAT Practice gain an average of 115 points from the PSAT/NMSQT to the SAT.

Students can access free, personalized SAT practice anytime, anywhere at satpractice.org.

You can use Official SAT Practice coaching tools to view practice recommendations and progress for entire classes and individual students, making it easier than ever to get your students ready for the SAT.

Complete the Suite

The SAT Suite of Assessments reflects what students are already learning in their classrooms and gives you benchmarks for assessing students' progress as they enter and move through high school. The tests share a common score scale, making it easier to measure growth.
